Hardcore Scents for the High Rolling Trapper

2011-2012 Season Catalog

Taking it to another level !

Bob Jameson

24 Birch Road / Daisytown, Pa. 15427

Ph. 724.938.2002

After years of testing lures and baits I determined that your products provide excellent results. Here are a few cats caught on your Sierra Mist, Shadow Stalker & XXX Matrix bait. Your 'cat urine is the best commercial urine I have ever used. Thanks for your great products. Jake Werner, Salina, Kansas

Fellow Trappers and Hunters,

Trapping, ADC and Scent formulation is my full time profession. The continued growth of our business has essentially been the direct result of our satisfied customers and word of mouth advertising. Our reputation for building and selling high quality products is the result of my lifes work.

Seasoned long liners and hard rolling part time trappers have come to know the benefits of multi attraction lures and baits. You can view the success of our customers and see some of the nations best trappers who have shared their catches and their experiences in the field using our attractants.

My 40 plus years of trapping across the U.S.and 36 years of formulation experience have gone into the development of all of our scents. Knowing that I make my living through commercial fur trapping, ADC work and lure sales I won't use anything but the best quality scent products possible.

Good lures & baits aren't magic in a bottle. However, they will help you get the job done faster by presenting your target animal with what interests them the most. Well formulated ingredient combinations do make the difference at the end of a day. An exceptionally good lure or bait will peak an animals interest by enticing them to further investigate that odor thus promoting more time spent at your sets.

Place your order with confidence knowing that each product has decades of trapline use both East & West with some big numbers behind them.Hard work, good basic methods and good scents do get results.Are you ready to step up to another level in scent attractors? We have provided many of the tools for you.Now its up to you to get rolling and enjoy the challenges that lie ahead.

**Thank you all for your patronage & Good Trapping to all,
Bob Jameson**

Front Cover: Trapper Gsell from Pennsylvania with a seasons catch of 507 fox and 14 coyote taken on Fox Cream & XXX Matrix bait. Another example that hard work, good lures / baits and good methods pay off.

All Season Gland Lures

Full bodied gland lures that are as true smelling as the animal itself. Only select cut glands, fresh collected bladder urine and full strength ingredients. All blended just right to promote aggressive animal investigation. **No diluted** urine based gland lures here. Leading the industry in authentic odor quality gland lures.

1oz. \$5.50 - 4oz. \$18.00 - Pint \$60.00

Red Devil (Red Fox Gland) Emulsified, slightly aged select red fox glands blended with just the right amount of fresh winter urine which makes up the foundation of this premium gland lure. A deadly lure at hole, hay, flat or scent post type sets. Our best selling gland lure nation wide. Excellent on coyote and coons too. Thick and long lasting!

Ole Grey Master (Grey Fox Gland) A very musky grey gland lure that emulates that true grey fox odor. Several record catches have been made across the country with this gland lure. If grey fox are your target animal this gland lure is your best choice.

Prairie King (Coyote Gland) This is an exceptional natural smelling gland formula that coyotes recognize. This lure represents the presence of a new coyote within an established territory causing other coyotes to investigate the scent. Proven and used by some of the best coyote and **ADC** trappers in the U. S.. The coyote in a bottle gland lure.

Shadow Stalker (Bobcat Gland) A heavyweight 'cat lure that has developed its own following of serious 'cat trappers over the years. A very natural and true cat-like aroma is what makes it so effective. Excellent for scratch up or hole type sets. If you have cats you will get results. Some impressive 'cat catches are made with this lure each year.

Sierra Mist (Bobcat Gland/Rubbing Scent) Heavy on the cat glands, fresh bladder urine, sweet castor and several other key ingredients make up this top shelf cat lure. A sticky consistency make it stay where you put it. The right touch of skunk carries "Sierra Mists" scent trail along the thermals to hunting cats on the prowl. A very high standard multi interest bobcat lure. It can be applied high for use as a rubbing scent or use it directly on ground level sets. It can also be used with bait as a great combination.

Sierra Mist is also available in a special pocket sized **2oz.** wide mouth jar. **\$10.00** ea.

Carlis Stephens, MO with some good New Mexico cats taken on XXX Matrix bait, Sierra Mist and Shadow Stalker lures. Thanks for the great products.
Maker of the "Coon Dagger" DP trap.

Canine Call Lures

Food & Curiosity Scents

1 oz. \$5.50 - 4 oz. \$18.00 - Pints \$60.00

Lone Wolf (Food Lure) A rich food/curiosity lure blended with sweet castor and several other key ingredients that make it a great "can't pass" lure. Excellent early or late season at hole or flat sets for fox, coyote or cat. One of our best selling predator lures. This lure is a favorite of mine and very attractive to all predators for early season or cold late season trapping. Some top run and gun predator trappers depend on Lone Wolf as their mainstay lure all season long to pile up large catches of predators.

Big 4 (Curiosity Lure) This rich blend of glands made with a heavy dose of mink glands is a universal attractor. I have found that it will attract all fur-bearing animals, from coyotes to mink and everything in between. If you want a go to lure that will do it all, then "Big 4" would be my choice. Many a predator has fallen to "Big 4". A great lure for early season or mild weather trapping. Very musky by nature.

Fox Cream (Food Call) A perfected cultured egg based lure blended with key glands, in house developed musks, a bold spike of skunk, a hint of good bladder urine then aging everything to term. Fox Cream has proven to be my #1 lure in sales and #1 fur taker for 30 years. **This lure is the most complex lure in our predator lure line.** Equal on fox, coyotes and cats. An excellent primary lure for dirt holes and flat sets.

Terminator (Food Call) Bold and full bodied by nature this lure is built to hold fast and provide a constant scent trail from your set. One hard working trapper Kevin Wells from Mississippi took 66 'cats on this same lure the winter of (2007-08). That's an impressive testimonial for this lure as a stand alone product. Longliner Matt Jones from Kentucky hits the coyotes and 'cats hard with this one also.

Erminator (Weasel Gland / Food Call Lure) A state of the art weasel gland, food call lure. A nice balance of several known weasel attractive ingredients blended into a high interest food base make this lure quite unique and very productive. Erminator was tailor made for weasels but is also deadly on all predators also.

Matrix Marking Scent (K-9 Marking Scent) A specific blending of key glandular excretions and other essential ingredients critical for inducing a marking behavior reaction in canines. This scent was originally developed for ADC work to target wary or hard pressed coyotes. Just apply the scent to a selected prominent object at any key location. Equal on fox and coyote. Exceptional at hole and flat sets when used with our XXX Matrix predator bait.

A triple on raccoon by Jason Turner, Arkansas. Jason likes our Urban Wildlife bait with the Trail Mate Type 2 Trailing Scent for ADC work. He certainly knows how to remove nuisance animals quickly and efficiently.

Long Distance Call Lures

Beat the Cold -Durable -All Weather Lures

1 oz. \$5.50 4 oz. \$18.00 Pints \$60.00

LDC lures developed for cold weather predator work and built right to hold up under extremely harsh weather conditions (cold - rain - snow).

Fox - Coyote - 'Cat - Fisher - Marten

Ultra Call L.D.C. (Maximum skunk push LDC) The king when it comes to calling power. Skunk is the primary carrier but it also has five other food and curiosity agents in the blend. Unlike some L.D.C. lures "Ultra Call LDC" is effective in the fall and in late winter. Use directly at the set or elevated to increase your down wind calling power. Very durable and made to hold where you place it. Great in deep dirthole sets.

Canines Choice (Hardcore Food Call) A highly attractive food call lure that is a blend of aged wild meats, musks and glands. One of our oldest and most reliable predator lures. A sweet skunk spike compounded with other key ingredients signal "food source" to all predators. Excellent at flat sets and dirtholes. One of my favorite lures for my longline traplines. Early or late season this lure is equal on fox, coyote or bobcat.

Magnum Cat L.D.C. (Bobcat LDC) A strong balance of aged 'cat glands/urine/food odors all compounded with a nice spike of skunk. A must lure for the serious cat man. This lure has a strong push and is long lasting. The perfect lure for wide open country cat trapping. Use directly at the set or elevated on a tree limb or rimrock to increase your down wind scent drift. Not a better call for cats 'cause it has all the right stuff. Fight the cold with Magnum Cat L.D.C..

Jonathan Flint, MO with a nice catch of coyote, fox, cat, coon and badger taken on XXX Matrix and Canine Marking Scent.

Water Line Lures

High Production Beaver-Coon-Muskrat & Mink Lures

1 oz. \$5.50 4 oz. \$18.00 Pints \$60.00

Ten Mile (Beaver Food/Curiosity Lure) This lure is loaded with sweet northern castor but has several other food and curiosity ingredients that beaver can't pass without closer investigation. Nothing better for castor mounds and live catch traps.

Bucks End (Mink Lure) Emulsified mink glands blended with some bold food odors which mink can easily recognize and are drawn to. This I have found to be the best combination for attracting and holding a mink's attention at land or water sets. Also a great curiosity/food lure for canines and coon.

Golden Essence (Shellfish/Tuna Oil Blend) A blend of two powerful essential oils plus some other goodies that will penetrate and hold fast where applied. Shellfish is a known attractor but when it is boosted with our own privately formulated **Tuna Oil** it becomes a **Super Call** for coon, mink and even canines. Durable and it calls farther than common shellfish products. This is a real knockout water lure no doubt.

Midnight Raider (Coon Lure) This lure is the cornerstone of our food call lures for coon and rats. Spring rat glands, oils with primary food odors all blended into a water resistant base makes this lure outstanding to say the least. Our top overall producing lure on coon, rats, mink & beaver. Thick, sweet and long lasting.

Ring Master (Coon Food Lure) A sweet, & sticky sweet/sour coon lure that calls them in rain, snow or cold temps. Different odors can be detected yet all ingredients are blended to perfection forming one dominate odor. Hardcore "gun and run" coon trappers use this one to pile them up by the truck full. Squirt and go, yes.

Seven Creeks (Muskrat Food Lure) Full of key essential oils and primary rat food odors put up in a heavy oil base. A real top notch rat lure for feed beds, slides or pocket sets. Powerful and penetrating. Excellent on nutria and coons also.

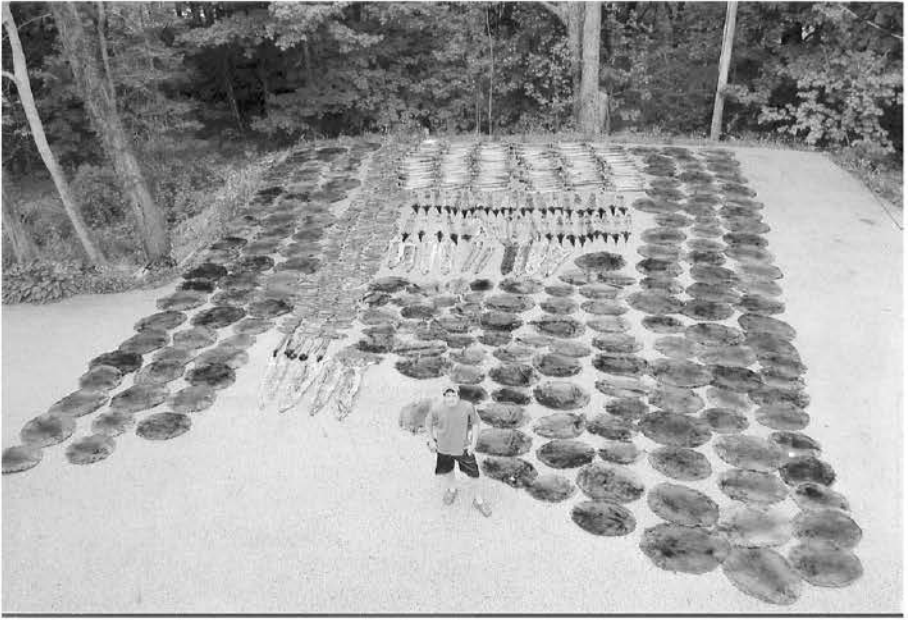

Rat Mate (Rat Gland) A custom made rat gland lure that is a must for any serious rat trapper. Sweet fresh spring rat glands blended in a heavy waterproof base plus other calling agents enhance the true natural rat gland odor. Nothing better in a bottle come spring thaw. You want rats, kick in a stream or lake side pocket, or the side of a hut, lure it up and start skinning.

Magnum Marsh Call (All Call) A heavy duty waterproof and concentrated lure. Full of rat glands plus several primary essential ingredients that boost this formula. **Deadly on coon, rats, beaver and nutria.** A perfect blend of gland, food and curiosity ingredients.. The cadillac and longest lasting water trapping lure we make. None better on the market. Compare to your favorites and see. Dip the end of a Q-tip and go.

Raccoon Valley (Coon Gland) Best lure for late season coon trapping. When other food type lures stop producing its time for **Raccoon Valley**. Gland lure will out work other lures at this time of year. Boars have other things on their minds besides filling their stomachs. Prime coon typically are your late coon. In late season use with our Golden Essence for a good one/two punch.

Trade for Glands, Wanted: Fox, Coyote, Bobcat, Muskrat, Beaver.

Trappers on the Line with our Scents

Brandon Johnson from Chardon, Ohio with a good mixed bag catch for the 2010-2011 trapping season. Good methods, good scents and hard work are the keys to a catch like this one. Good job Brandon, that is certainly an exceptional catch.

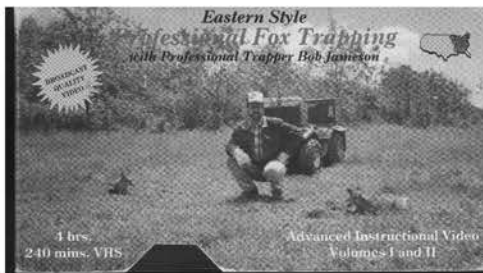

Bill Beckman, El Dorado, KS with a dandy western cat. Bill is a good trapper and long time user of our products. He likes the XXX matrix bait, Shadow Stalker and Sierra Mist products for cats.

Steve Craig, Arizona with a 250# Maine bear that was foot snared using our "Trail Mate" trailing scent for bear. Steve says the proof is in the pudding.

Lure Formulation Ingredient Bases

Lure bases marked by an asterisk (*) are produced in house at our facility. Lanolin and fancy tallow fat are both commercially produced products. All bases are animal by product oils or cultured products developed for lure or bait formulation. No wholesale or discount pricing on any of the items listed below.

	Pint	Gallon
* Sweet Musk Oil Base (dark brown)	\$10.00	\$50.00
* Golden Essence Oil (golden color)	\$10.00	\$50.00
Fancy Tallow Fat Oil (white color)	\$15.00	
Anhydrous Lanolin (stickv,vaseline like)	\$12.00	
* Skunk Oil (mild/muskv)low freeze point	\$10.00	\$50.00
* Egg Base Paste (Cultured Eggs) Creamv	\$15.00	\$50.00

Fish Oils & Essences

	Pint	Gallon
Best > Trout Oil (sun rendered)	\$10.00	\$50.00
Menhaden Oil (pressed)	\$6.00	\$20.00
Salmon Oil (saltwater)	\$8.00	\$40.00
Shellfish Oil Essence	\$30.00	
Shrimp Oil Essence	\$40.00	

Trappers: Fish oils and essences are not equal in quality or performance. Commercial pressed fish oils are less expensive. However they lack the quality, strength, durability and trueness of odor as that of sun rendered fish oils. Sun rendered fish oils are the best quality fish oil choice to use in formulation and the odor will linger longer after your application at a set on the trapline in my experience.

"Max Force"

Predator "Bait Solution"

A professional bait solution formula for trappers that like to make their own predator bait. Add bait solution to fresh or tainted preserved meat for a top notch predator bait. "Max Force" contains all the ingredients found in a good lure. Once mixed and aged with the meat base of your choice your bait will rival most commercial baits sold today. **16oz. treats one gallon of bait, 1/2 gal treats 4 gal. of bait, 1 gallon treats 8 gal. of bait.**

Pint \$18.00; 1/2 Gallon \$60.00; Gallon \$90.00

Jameson's Ultra Blend T-Shirt. Quality tan color shirt with full color artwork of our logo Red Fox on the back of each shirt with printed logo on left front chest area as well. Available in Adult Large, X Large, 2X. State size and quantity with each order.

All sizes \$20.00 each

Bat Call (Paste Bat Call Lure)

For use in bat traps and bat houses to encourage faster inhabitation time and overall bat acceptance to an unfamiliar site. This call lure will make the lure application area smell like the bats familiar habitat within an active colony site thus making them feel at home. Bat call helps you to jump start a new or old bat house by scenting the new roost sites with a recognizable odor that all bats can easily identify.

4 oz. \$15.00

Rege Denne, PA. with a good days run on cats from his Kansas trapline using XXX Matrix bait, Sierra Mist, Shadow Stalker and our premium 'cat urine.

Professional A.D.C. Baits

8 oz. \$7.00; 16 oz. \$13.00

Gallon \$65.00

Formula One (Woodchuck Bait-Herbal Base) This full-bodied bait is developed from the woodchuck's favorite food sources. Built with full strength food call ingredients that compliments the bait without over powering the rich natural aroma. Chucks find this lush fragrance difficult to pass up at any time of the year. "Formula One" is put up in a heavy paste form that's built to last. Great spring or summer and our best selling chuck bait. **The nations best selling woodchuck baits.**

Formula Two (Woodchuck Bait-Herbal Base) A unique but different blend of herbs and oils that chucks cannot resist. Like "Formula One," this unique bait has a lush green base that is also a proven staple food of the woodchuck. The bait's aroma cannot be matched in calling power on pulling chucks into cage traps. Use with brocolli for eye appeal suspended in back of trap.

Nutracker (Squirrel Bait) "Nutracker" is a rich nut based and "multi nut flavored" blend of the squirrel's favorite food stuffs, all put up in one unique bait. Just smear some bait on a few walnut shells or a handful of acorns for eye appeal. Place scented nuts in back of cage trap to easily be seen by any traveling squirrel. The "nutty" fragrance of "Nutracker" will do the rest. It's very durable and weatherproof. A great all season bait.

Fireball (Raccoon - Skunk Bait) Harvest coon and skunk fast with this proven trapline bait in both warm and cold temperatures. In cages or on the water front. **Fireball** works hard and fast with its piercing fragrance that cuts through the frosty air like a knife. Our best selling coon bait for ADC and longline coon trapping. Compare to your old standby coon bait/lure. Good early or late season.

Urban Wildlife Bait (Raccoon, Skunk, Woodchuck, Canines) A universal paste bait that covers all the bases. One of our best selling ADC coon baits for 20 plus years. Virtually cat proof by nature and attractive to just about every specie of wildlife. Deadly in hole, pockets and tube type traps. An edible, anti dry out bait formula that creates intense interest once detected at your set.

Grub Stake (Skunk Bait) A powerful and proven skunk bait that was tailor made for skunk control work. "Grub Stake" is a blending of food call and curiosity ingredients with a very sharp spike odor added for push. The results is a natural sweet/sour aroma that skunks can easily follow the scent trail right to your traps. Use with a few cracked egg shells or marshmallows for eye appeal. This bait can't be beat in performance. It's heavy, durable and attractive for year round work.

Peaches & Cream (Universal ADC Bait) A heavy bodied bait with a sharp aroma of sweet ripe peaches blended with a side odor of sweet vanilla cream. This bait is irresistible as I have found all wildlife will seek out ripe peach trees when in season and continue to visit the tree until all fruit is gone. Extremely attractive to canines, skunks, woodchuck and raccoon. Another one of our edible baits in our adc line that is a great pre bait to entice return visits if so desired. Super in Lil Griz traps.

Chuck Mate (Woodchuck Paste Gland Lure) A rich emulsified gland formula developed with the same rigid standards as our predator gland lures. Use with a small amount of eye appeal and some food lure/bait. Use with our Formula One or Two woodchuck paste baits for best results. Chucks are very territorial and will react aggressively to a good gland formulation. Chucks come easy with this lure.

Special pricing for "Chuck Mate" gland lure.

1oz. \$5.50 4oz. \$18.00

A.D.C. Lures / Trailing Scents

1 oz. \$5.00; 4 oz. \$15.00

Pints \$40.00

Formula One L.T.S. (Woodchuck Lure-Trailing Scent) A powerful, food/curiosity formulation that is a proven call lure to the woodchuck. Apply a few drops to some leafy greens or broccoli for eye appeal. Use a few drops of lure to the ground at the burrow or den entrance and lead scent trail into cage trap. Place lured material in back of cage in full view. A great combination when used with Formula One or Formula Two Paste Baits. The best selling woodchuck lures nationwide.

Formula Two L.T.S. (Woodchuck Lure-Trailing Scent) An alternative blend of food lure odors that has been specially formulated for woodchucks. "Formula Two" is a selective nuisance control product that is tailor made for vegetation eating animals. "Rabbits" find Formula One and Two very attractive as well. Use alone as trailing scent then apply to leafy greens to serve as eye appeal.

Skunk Mate L.T.S. (Skunk Lure-Trailing Scent) This all season lure is the "ace in the hole" for all NWCO's. Skunk Mate L.T.S. with the addition of small marshmallows for icing to the cake makes for an irresistible combination for skunk work. Best used with our grubstake bait.

Nutcracker L.T.S. (Squirrel Lure-Trailing Scent) A heavy oil "Nutty" food call lure developed specifically for nut eating rodents. The nutty fragrance will endure arid temps and still give off its' unique, nutty fragrance. Excellent for leading squirrels into cage traps and works wonders with our Nutcracker Squirrel Bait. A must for any serious rodent or squirrel control work.

Night Flyer L.T.S. (Flying Squirrel Lure-Trailing Scent) A balanced blend of naturally occurring wild nut essences combined with a spike of wild fruit to top off the mix. Flyers are very impressed with this product and that's all that counts. Nutcracker Bait and Night Flyer L.T.S. gets the job done quickly. Use in cages or on snap traps

Piney Bluff L.T.S. (Red Squirrel Lure-Trailing Scent) A target specific lure built for the pine tree loving red squirrel. This wild nut essence blend is formulated with a light touch of pine fragrance. Nothing compares to "Piney Bluff" for effective red squirrel work. Use with eye appeal i.e. corn/nuts or with our Nutcracker Bait. Nothing's better. A deadly combination in a cage trap setup.

Hot Shot L/B L.T.S. (Raccoon & Skunk Lure-Trailing Scent) A burning fresh tuna fragrance that is attractive to a variety of wildlife. The ultimate attractor when used with eye appeal or use alone as a trailing scent. This special Tuna Oil odor blend is exclusive to our business and a great attractant for all species. All animals like tuna fish and oil. A great squirt and go lure at pocket sets.

Peaches & Cream L.T.S. (Universal Lure-Trailing Scent) The fresh aroma of ripen peaches is the main scent of this universal trailing scent. It also has a very subtle underlying fragrance of sweet vanilla cream that adds to its' alluring fragrance. Very attractive to woodchuck, skunks, canine and raccoon. Same active ingredient formula as our bait only in liquid form. Best Seller.

Fireball "A.D.C." L.T.S. (Raccoon/Skunk-Lure/Trailing Scent) An extraordinary bitter sweet blend of oils & extracts with an intense lingering fragrance that holds where applied. Coon and skunk will dig the ground where applied so dont over use as a trailing scent. Apply a small squirt to marshmallows or other eye appeal and use a few drops leading into the cage opening. One of our leading coon and skunk lures. Best when used with our Fireball ADC bait.

Chuck Matrix L.T.S. (Woodchuck Gland Lure, Liquid) A true woodchuck gland lure made according to the same rigid standards as our canine gland lures. This excellent formulation was built to allow controlled odor emission which aids in the active life of the lure. Can be used alone with eye appeal or with our Formula One and Two Baits. The one and only original "Chuck Matrix" gland lure.

Special pricing for "Chuck Matrix" gland lure 1oz. \$5.50 4oz. \$18.00

Trail Mate

Professional Trailing Scents

\$15.00 per pint; 3 pints \$40.00

Type 1 (Fox - Coyote - Cat) Type 2 (Coon - Bear - Mink)

Specify Type 1 or Type 2 with Order!

These concentrated scents are trapline proven and very effective for trailing predators, coon and mink to your sets. They were designed for situations where you want to lead your target animal to a set or to a more secure location. You can also use **Trail Mate** as a "Shoot and Go" lure or apply it as a trailing scent. Either way **Trail Mate** will entice animals to follow the scent trail to a pre selected area.

2 Scent Types

Odorless Lure & Dirt Anti-freeze

	Pint	Gallon

1 oz. \$6.00; 4 oz. \$20.00; Pint \$50.00

* Formulated - Doe In Heat - Phermone (Liquid)

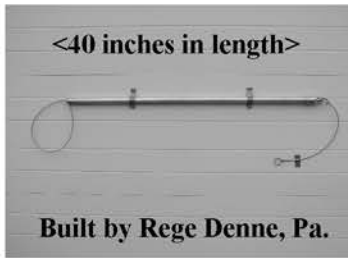

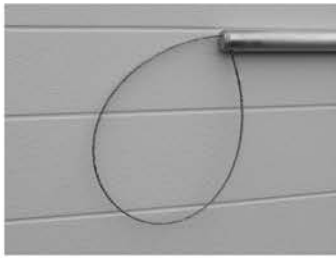

1 oz. \$15.00; 4 oz. \$45.00 and 16 oz. \$150.00

*Excellent additive to deer urine or deer scents, 2 drops per ounce only.

Pro Control / Release Pole

\$40.00 each

A must have tool for all trappers. Safe control & release of any animal.

Constructed of **1-1/8" O/S** diameter rigid wall aluminum tubing. Cable is **1/8th** non vinyl coated galvanized steel for easy feed, better control and faster choke down. Easy repair of cable and locking mechanism when needed. Priced right for a quality product. I have been using a similar design for over 20 years for live market and adc work. I keep one in my truck and one on my ATV. Easy control & handling of all wildlife species. This is a manually operated release pole.

Traditonal "Trap Dyes"

(Brown Powder) Turns black in water. Use about 1-2 pounds of dye per five gallons of water. Bring water to a simmer only. Make sure traps are covered completely with dye while cooking traps. Traps should be slightly rusted for dye to adhere to steel properly.

1 lb. \$3.25; 5 lb. \$15.00; & 10 lb. \$29.00

Black Trap Dye Best Quality

1 lb. \$6.00 5 lb. \$29.00 10 lb. \$55.00

Formula One "Pro Blend Trap Wax"

An odorless and durable blended trap wax. Not the typical low grade candle wax that isnt always odor free and is very brittle. This is a rugged and durable high grade wax blend that protects and guards against rust development. This is my choice for fool proof trap treatment and protection. Dip clean traps into a pure solution of Pro Trap Wax for best results. Keep from scorching your wax as this can cause canines to dig up your traps. I prefer a heat range of 195 > 215 degrees for my ideal wax temperature. Always be careful when working around an exposed heat source as wax is very flammable.

1 lb. \$3.50; 5 lbs. \$15.00; 10 lbs. \$27.00

World Class Predator Baits

"XXX Matrix" is now available in a new "Beaver Meat" Formula. State "Bobcat or Beaver" XXX bait formula when ordering. Both baits are limited quantities items.

"XXX" Matrix Predator Bait A precise blending of key selected ingredients added to two different wild meats. A combination of food, gland and curiosity ingredients which compels predators to investigate this bait. XXX causes an intense food/curiosity response in all predators. The key to the success of this bait is naturally the ingredients. However, allowing all the ingredients the proper contact time to blend together thoroughly makes it what it is. We typically sell out of XXX each season so order early on this item. This is the King of all predator baits bar none. Available in Cat or Beaver meat formulas.

Fur Taker (Fruit Paste) A very sweet & fruity bait that creates instinctive food and curiosity reactions in coon, fox, coyote, skunks, beaver and woodchucks. Best early at dirt holes for canines, pocket sets for coon and rats. Great in cage traps and an **edible pre-bait** with very minimal attraction to domestic cats.

Night Stalker (Red Meat Predator Bait) A desired red meat bait blended with our **matrix bait solution** that enhances the natural wild odor which predators easily identify. Remains fresh all season and won't spoil. A great bait for early season hole sets with a splash of urine or gland lure.

K-9 Stopper (Non-meat) A (mild) cultured and blended egg bait that tastes and smells right. This bait creates an intense digging reaction in predators at hole and flat sets. Excellent with a touch of our **Red Devil** gland lure or urine at a set. No other bait on the market quite like this one. All predators love eggs when available. They will intensely seek out the origin odor of the eggs when that scent is recognized.

Bank Runner (Fish Bait) Fresh cut, Indian cured salt water fish blended with our magic fish solution promoting total acceptance of this unique bait. Great on water or land. Coon and mink is written all over this bait. Great in dog proof traps and pocket sets. Blended with our special "fish bait matrix" solution which gives "Bank Runner" its' unique "**sweet fish**" odor making it a very edible bait. Coon and mink is written all over this bait but also an excellent grey fox and coyote bait as well. Need to pre bait, this is the one!!

Power Call (Fortified Fish Bait) The sharp push of blended fish is your first impression of **Power Call** bait. But other enticing secondary food odors complete the scent trail. Our **power boosting ingredients** give that extra needed push in cold temperatures. Our best bait for early or late season water work on coon and mink. A teaspoon of bait is plenty per set. This bait was tailor made for DP type traps as it is very heavy and sticky so it stays where you apply it. Raccoons won't stop working the trap until the bait is gone.

8oz. \$7.00; 3 > 8oz. \$18.00; 16oz. \$12.00; 3 > 16oz. \$34.00; Gallon \$65.00

Predator Specialty Baits

Mega Mouse (Rodent Paste Bait) The fresh natural odor of a rodent at your set is deadly. Predators easily recognize this odor as a prey food and this causes intense investigation. One of our top selling baits and rightly so. Seasoned trappers know the value of this bait. Limited quantities.

Long Liner "Power Plus" (Fortified Paste Bait) A bait that is so "**bold**" many use it as a lure. Use Long Liner alone at flat, dirt hole or projection sets or in combination with lure or urine. **Long Liner** is great for pre-baiting, test sets, getter guns and collarum type devices. Aged and compounded to exacting standards. This bait will provoke an aggressive bite and pull reaction. One of our top selling predator baits.

Trail Mate

Trailing Scents

2 oz. \$9.95; 16 oz. \$29.95

Trail Mate is a formula of fresh urine, tarsal glands and musks which contains a special ingredient that controls odor dispersal and reduces dry out. Trail Mate is a concentrated big game attractant that has earned its way to the top as a trusted and proven big game hunting scent. There is not a more effective trailing scent available commercially.

Big Game Lures

1-1/4 oz. \$8.95; 4oz. \$19.95; 16 oz. \$39.95

"Trophy Hunter" Buck Lure- A Trophy deer scent formulated to appeal to a buck's most basic instinctive drives. Survival, reproduction and territorial infringement behavior. Prime doe estrus cycle urine, tarsal gland musk and a few other curiosity ingredients. All blended and aged right giving you an extraordinary deer hunting scent. Effective early or during the rut. Don't compare this to mass produced store type deer scents. Nothing compares. Most hunters have not experienced a true prime uncut deer scent. Use in mock scrapes and elevated scent wicks.

"Matrix X" Buck Lure- This hard hitting deer scent was built from glands and excretions collected from subordinate buck deer then blended with other key essential ingredients. Mature bucks perceive subordinate bucks as threatening as the rut progresses. When the subordinate deer odor is detected it is monitored regularly by the mature bucks to determine the intruders whereabouts. This is the silver bullet of deer lures and many times out performs the noted "Doe in Heat" type scents. Some exceptional trophy buck have been taken with this scent.

"Trophy Hunter" Bear Lure - A combination food/curiosity odor that bears are compelled to investigate. Hunters and professional guides have proven this scent to be very effective when used at bait and draw stations. Wildlife officers are also using this scent as a primary attractor to draw bear into mobile tunnel traps for removal and transfer projects. This lure is even more effective when used with our Trail Mate Trailing Scent for Bear. A great one-two punch for the serious hunter.

Big Game Cover Scents

1-1/4 oz. plastic \$5.00 ea.; "Skunk Screen" is 1oz. glass \$7.50 ea.

Acorn Scent - A natural primary food essence odor that all deer recognize and will investigate.

Apple Scent - A ripe apple essence food odor that deer will travel long distances to find the source.

Earth Scent - The ultimate fresh dirt odor cover scent for all clothing, boots and equipment.

Red Fox Urine w/ Deer Musk - A blend of strong red fox urine and tarsal deer musk.

Skunk Screen - The king of cover scents for hunting and calling. Very strong. Glass bottles only.

Sweet Corn - A highly prized food source deer seek out when available. Excellent all season long.

Aaron Lane & Kellie Benson from Pa. with a barn full of fur taken with xXx Matrix Bait and Canine Matrix Marking Scent. Aaron is a well seasoned, hard working trapper that knows how to roll for predators East or West.
